SUMMARY

I am an Informatics student at BINUS University focusing on Software Engineering and Cloud Technology. My main interests lie in web development, cloud infrastructure, and applied Deep Learning, supported by certifications in Google Cloud, Large Language Models, and AI Agents. I also gained practical experience through a Khidmah program at Thursina IIBS Unit Administration and Data Center (May–June 2023), where I was involved in IT infrastructure and system support operations.

Looking ahead, I aim to deepen my expertise in cloud computing and Deep Learning while expanding real-world software development experience. My goal is to contribute to innovative technology projects and grow as a skilled engineer who creates meaningful impact.

EXPERIENCE

Independent project 10/2026 - 10/2026
BookNest — CI/CD, Container & Backup Pipeline
Production hardening for BookNest: Docker Compose multi-service containerization (Nginx + Node + SQLite volumes), GitHub Actions CI pipeline, and automated SQLite backup scripts with Telegram off-site alerts and health check verification.

independent tech project 05/2026 - 05/2026
cloud infrastructure simulation
Designed a comprehensive cloud infrastructure architecture diagram for a supermarket self-checkout system.

Data Center & Administration Intern (Program Khidmah) 05/2023 - 06/2023
Thursina International Islamic Boarding School (IIBS) – Unit Administration and Data Center
Responsible for sorting and organizing student graduation data for both Junior High School (SMP) and Senior High School (SMA) levels in preparation for the graduation ceremony. Assisted in data verification, administration support, and ensuring accurate records within the school's data center operations.

EDUCATION

Computer Science 09/2024 - Present
Universitas Bina Nusantara - Bachelor

Science Major 06/2020 - 07/2023
Thursina IIBS - Senior High School

CERTIFICATES

Cloud Computing Foundations Certificate ↗ 09/2026 - Present
Google
Credential ID: 725cc765-5ba3-4539-8a06-1b7d5784225a

Intro to Large Language Models 06/2026 - Present
Hacktiv8 Indonesia

IT - AI Agent for Programming 06/2026 - Present

Hacktiv8 Indonesia

Credential ID: 01338/H8/CSR/ISUE/V/2026

SKILLS

Containerization : Docker

Cloud Infrastructure : Google Cloud Platform, Basic Cloud Concepts, basic Linux

Database : MySQL / PostgreSQL

Web & App Development: HTML, CSS, JavaScript, PHP, Laravel, Node.js, REST API

Basic UI/UX Design

Tools & Software : Visual Studio Code, GitHub, Canva, Figma. LLM

Programming : Python, C, PHP, JavaScript

LANGUAGES

English	Intermediate	Indonesia	Native
