SUMMARY

I am an Informatics student at BINUS University focusing on Software Engineering and Cloud Technology. My main interests lie in web development, cloud infrastructure, and applied Deep Learning, supported by certifications in Google Cloud, Large Language Models, AI Agents, and UI/UX Design. I also gained practical experience through a Khidmah program at Thursina IIBS Unit Administration and Data Center (May–June 2023), where I was involved in IT infrastructure and system support operations.

Looking ahead, I aim to deepen my expertise in cloud computing and Deep Learning while expanding real-world software development experience. My goal is to contribute to innovative technology projects and grow as a skilled engineer who creates meaningful impact.

EXPERIENCE

- independent tech project

cloud infrastructure simulation

05/2026 - 05/2026

Designed a comprehensive cloud infrastructure architecture diagram for a supermarket self-checkout system.
- Data Center & Administration Intern (Program Khidmah)

Thursina International Islamic Boarding School (IIBS) – Unit Administration and Data Center

05/2023 - 06/2023

Responsible for sorting and organizing student graduation data for both Junior High School (SMP) and Senior High School (SMA) levels in preparation for the graduation ceremony. Assisted in data verification, administration support, and ensuring accurate records within the school's data center operations.

EDUCATION

- Computer Science

Universitas Bina Nusantara - Bachelor

09/2024 - Present
- Science Major

Thursina IIBS - Senior High School

06/2020 - 07/2023

CERTIFICATES

- Cloud Computing Foundations Certificate ↗

Google

Credential ID: 725cc765-5ba3-4539-8a06-1b7d5784225a

09/2026 - Present
- Intro to Large Language Models

Hacktiv8 Indonesia

06/2026 - Present
- IT - AI Agent for Programming

Hacktiv8 Indonesia

Credential ID: 01338/H8/CSR/ISUE/V/2026

06/2026 - Present

SKILLS

Prompt Engineering

Cloud Infrastructure : Google Cloud Platform, Basic Cloud Concepts, basic Linux

Database : MySQL / PostgreSQL

Web & App Development: HTML, CSS, JavaScript, PHP, Laravel, Node.js, REST API

Basic UI/UX Design

Tools & Software : Visual Studio Code, GitHub, Canva, Figma. LLM

Programming : Python, C, PHP, JavaScript

LANGUAGES

English

Intermediate

Indonesia
